No arrivals at Liverpool from 25th to  
29th.  
I send you a file of papers to the 28th ult.  
just received by the George Washington.  
She sailed on the 29th. I add the latest cot-  
ton market in the city.

LIVERPOOL, March 28.  
Our cotton market has been quiet for the  
last few days, and though holders generally  
are firm, prices are a shade lower. The sales  
for the five days (since our last circulars)  
amount to 18,400 bales. The Manchester  
market is dull again. Flour is lower, 1000  
barrels Western Canal having been sold at  
35s a 35s 6d per barrel by auction.  
The Liverpool arrived on the 25th.  
The following paragraph is the conclu-  
sion of an article of the late boundary  
troubles, in the London Chronicle, of March  
24.  
[The Congress, however, was expected  
not to separate (the season being upon the  
point of ending) without providing for the  
opposite alternative, by placing large resour-  
ces at the disposal of the President, to be  
used in the event of any attempt, on the part  
of Great Britain to take military possession  
of the territory in dispute. We have no  
reason to fear this, as Sir John Harvey, in the  
midst of great provocations, on the part of  
Gov. Fairfield, has evinced a temper, and a  
moderation, which will ensure his ready ac-  
quiescence in the arrangement sanctioned by  
Mr. Forsyth and Mr. Fox.]

NEW YORK MONEY MARKET.  
The Express of Wednesday, May 2nd,  
says—  
Exchange on England closed on yester-  
day at 109 per ct. which is half per ct. better  
than by the Great Western. There is a  
very good demand for Exchange and Bill  
Drawers are very firm. This is a favorable  
circumstance for the Cotton Holders.  
We learn that Morris Robinson, Esq.,  
late President of the Bank of the United  
States in this city, has accepted the appoint-

ment of European agent for the American  
Exchange Bank, and that he will depart on  
his mission on the 10th inst. This institu-  
tion has been organized under the general  
banking law of this State, and based on a  
cash capital of over \$1,000,000, already paid  
in. We are informed that the directors pro-  
pose to receive additional subscriptions, both  
in the United States, and through Mr. Robin-  
son, while the gentleman may remain in  
Europe.  
Referring to the late news from England,  
the same paper says—  
Private letters state the money market in  
London to be without any material change  
—for a moment there was a pause in Ameri-  
can securities, but there had been no decline.  
The idea of war was considered by men of  
business in London, ridiculous. The worst  
accounts had reached England from this  
country, viz: the breaking up of Congress,  
the law authorizing 50,000 men to be called  
out, and the war speeches in the Senate,  
—even with all these there was no apprehen-  
sion of any interruption of our friendly re-  
lations. The next news received in London  
will be pacific,—the happy termination of  
Gen. Scott's mission, and the disbanding of  
the Maine militia.  
The Liverpool carried out a countermand  
of a vast many orders for goods. This had  
materially affected the trade at Manchester,  
which was dull. This will have a favour-  
able effect here, for it is evident there were  
too many goods ordered for our benefit.

PHILADELPHIA MONEY  
MARKET.  
The North America of May 2nd, says—  
The stock market is excessively dull—  
very little doing in any kind of stock. The  
prices remain so similar to our yesterday's  
quotation, that no change of importance can  
be noted. Money remains very much the  
same in the streets. The payments for last  
year's purchases are almost over, and conse-  
quently the demand has become more limited.

Stock & Money Market at Philadel-  
phia April 30.  
There was but little done in stocks to-day,  
though prices were firm, and United States  
Bank sold at a small advance. The only  
operation of any moment were in Vicksburg  
Bank, which slightly advanced. We have  
no change to record in money matters.  
We regard the news by the George Wash-  
ington, as by no means favorable to a rise in  
securities on this side. Cotton had not fallen,  
but was very heavy, and demand very limited.  
Both there as in this country, it is im-  
possible for manufacturers to spin, save at a  
loss—this causes them to operate only from  
day to day. Flour was falling. In that as  
in Cotton, the same anomaly exists. The  
manufactured article bears no proportionate  
price to reimburse the manufacture of it, as  
compared with the raw material. The same  
remark applies to Woollens also. Nothing  
shows the disorder which has crept into every  
thing more than this fact.

EXCHANGE AND MONEY.—The Banks  
are not at present checking on the East.

follows.

and S. Carolina, 5 a 7.

DESCRIPTORS of Mississippi money not  
quoted above, either sell at a very large dis-  
count or meet with no sale.—Louis Journal.

THE RISE IN COTTON.  
It occurred at so late a period in the season  
that very little benefit accrued to the planter  
as the crop was mostly sold, and had passed  
into the hands of the merchant before the fa-  
vorable change occurred. But for this loss  
some recompense will be received by the  
continuance of the high prices through the  
next season—an event that can now be safely  
calculated upon. The shortness of the last  
crop, is a sufficient guarantee of that fact,  
and the withdrawal of a large amount of  
capital from the cultivation of cotton, in con-  
sequence of the distress, of the times, leaves  
reason to doubt whether the present crop  
will exceed the last. We know that in  
Mississippi many planters are broken up,  
and lands thrown out of cultivation by the  
insolvency of the proprietors. In this way  
a large deficiency will be created in many  
sections, and the effects of the same cause  
must be felt more or less extensively through-  
out the Southern country.

FROM MEXICO.  
The arrival of the United States govern-  
ment packet Woodbury, Capt. Nicholas, and  
the Brig Isaac Franklin, Capt. Smith, yester-  
day from Vera Cruz, brought dates from  
that city to the 22d inst. Their contents, how-  
ever, are not of particular interest, and do  
not materially differ in import, from our last  
advices. The El Censor of the 18th con-  
tains the official announcement of the treaty  
with France.

Article 1. To make satisfaction to the  
reclamations of France, relative to inju-  
ries suffered by the citizens, prior to the 26th  
November, 1838. The Mexican Govern-  
ment shall pay \$600,000, in three instalments  
of \$200,000 each. The Mexican vessels se-  
questered during the course of the blockade,  
in consequence of the declaration of war, are to  
be considered legally acquired, and are to  
be submitted to the arbitration of a third  
friendly power.

Regarding the settlement of the difference  
with France, the Mexican papers "talk" ve-  
ry loudly in praise of the national valour,  
for bringing about such a termination. The  
payment of \$600,000, say they, imports no-  
thing to a nation at peace; and now that the  
national colors float over the fortress of San  
Juan de Ulloa; they tauntingly ask, where  
are Generals Mexico and Urrea?  
On the 17th ult. an edict from the supreme

government, suppressing "the scandalous ab-  
use of the press," was proclaimed at Vera  
Cruz. "The incendiary writings of the op-  
position are the ruin of this beloved coun-  
try, inciting to revolt and disunion."  
At the last dates Bustamente was concentrat-  
ing his forces at the Valle del Mair, and  
making every manner of preparation for  
making his grand attack on the Federatists.  
—Probably the next arrival may bring us  
something about the encounter.  
For several of the above items we are in-  
debted to the Mexican papers received at the  
Merchant's Exchange.

EROM TEXAS.  
The steamer Columbia, Capt. Windle,  
arrived last evening in thirty-three hours  
from Galveston. Through the attention of  
Capt. W. we are indebted for Galveston pa-  
pers as late as the 26th ult., but we observe  
nothing of much interest.  
"The San Jacinto Ball," given at Galves-  
ton on the 22d is described as quite a splendid  
affair. The Civilian says—  
"The ball-room was decorated with the  
British, American and Texian flags, with  
cypress and magnolia boughs from the bat-  
tle field," &c. Previous to the ball several  
patriotic addresses were delivered, in com-  
memoration of the event. The British barque  
Ambassador was awaiting a favorable wind  
when the Columbia sailed.

PETERS' PILLS.  
THESE PILLS have long been known,  
and appreciated for their extraordinary and  
immediate powers of restoring perfect health to  
persons suffering under nearly every kind of dis-  
eases to which the human frame is liable.  
In many hundred of certificated instances they  
even rescued sufferers from the very verge of an  
untimely grave, after all the deceptive nostrums  
of the day had utterly failed; and to many thou-  
sands have permanently secured that uniform  
enjoyment of health, without which life itself is  
but a partial blessing. No great indeed, has their  
efficacy invariably and infallibly proved that it  
has appeared scarcely less than miraculous to  
those who were unacquainted with the beautiful  
philosophical principles on which they conse-  
quently act.  
The proprietor rejoices in the opportunity af-  
forded by the universal diffusion of the daily  
press, for placing his vegetable pills, within the  
knowledge and reach of every individual in the  
community. Unlike the host of pernicious  
quackeries, which boast of vegetable ingredients,  
these pills are purely and solely vegetable, and  
contain neither Mercury, Antimony, Arsenic,  
nor any other mineral, in any form whatever.  
They are entirely composed of extracts from  
rare and powerful plants, the virtues of which,  
though long known to several Indian tribes, and  
recently to some eminent pharmaceutical chem-  
ists; are altogether unknown to the ignorant  
pretenders to medical science, and were never  
before administered in so happily efficacious a  
combination.  
Whenever these pills have been once intro-  
duced into a family, they become a standing re-  
medy, and are called for again and again, which  
is sufficient proof of their good qualities.  
It is a truth, that almost every person who has  
ever used Peters' Vegetable Pills, recommend  
them to their friends, and it is from this circum-  
stance alone, that they have gained such an un-  
rivalled reputation.  
When taken according to the directions accom-  
panying them, they are highly beneficial in the  
prevention and cure of bilious fever, fever and  
ague, dyspepsia, liver complaints, sick headache,  
jaundice, asthma, rheumatism, enlargement of  
the spleen, piles, cramp and bilious colic, fe-  
male obstructions, heart burn, pleurisy, fur-  
tongue, distention of the stomach and bowels, in-  
digestion, diarrhoea, flatulence, habitual consti-  
pation, loss of appetite, bloated or sallow com-  
plexion, and in all cases, of torpor of the bowels,  
when a cathartic or an aperient is needed. They  
have the testimony of the whole medical profes-  
sion in their favor, while not a single case of ill  
consequences or inefficiency, can be alleged ag-  
ainst them.  
Prepared by Jos. Priestly Peters, M.D., at his  
Institution, for the cure of obstinate diseases, by  
means of Vegetable remedies, No. 129 Liberty  
Street, New York. Each box contains 40 pills—  
Price 75 Cts.  
More than two millions of boxes of these cele-  
brated pills have been sold in the United States  
since January, 1835.  
Dr. Peters has received upwards of fifteen  
hundred certificates, all given in consequence of  
the good done by his Medicines.  
Be careful to enquire for Peters' Vegetable  
Pills. They are for sale in Holly Springs, at the  
Store of Messrs O. D. Sledge & Co. and can be  
had in almost every town in the State.
